FIXED FULL-ARCH IMPLANT SOLUTIONS FOR THE EDENTULOUS PATIENT

COURSE DESCRIPTION:

This full-day course is designed to simplify the treatment planning and protocol of the fixed full-arch prosthesis. Learn about all aspects of the full-arch implant surgical-prosthetic protocols, including a new approach that does not require the need for screws or cement. Begin by understanding the basic surgical planning, indications, and treatment planning of the fixed attachment system. The topics of provisionalization, final prosthesis design and material selection, prosthesis removal and maintenance will be covered.

PRESENTER:

Robert A. del Castillo, DMD

Dr. del Castillo received his dental degree and his Certificate in Periodontics from Tufts University, School of Dental Medicine, where he was an Adjunct Professor in the Department of Periodontics. He is presently a member of the editorial review board for the Journal of Prosthodontics and is affiliated with the American Academy of Periodontology. Dr. del Castillo maintains a private practice, limited to periodontics with a strong emphasis on implant and regenerative therapies in Miami Lakes, Florida. He lectures nationally and internationally and has published articles on regenerative and implant therapies.

LEARNING OBJECTIVES:

- Understand the pros and cons of removable vs. fixed implant restorations
- Identify the indications and limitations of the fixed attachment system
- Understand the protocol and procedure for immediate load cases, conversion from removable to fixed restorations and options for rescuing failed screw-retained cases
- Learn how to determine the quantity and position of implants for the best outcome
- Review of impression taking: direct and indirect techniques
- Maintenance and follow-up guidelines

COURSE DATE: Saturday, June 9, 2018

COURSE TIME: 09:00 - 17:00

FORMAT: Lecture and Hands-on Training

COURSE FEE: Doctor - \$300.00 USD
